

The World's First & Only Academy of Workplace Substance Management

TOX247s Academy of workplace substance management is designed to provide formal training and recognised TOX247 Academy accreditations at levels 4, 5, 6, & 7. Courses provide a Licence to Practice the accreditation within new and innovative roles of: Sample Collection Practitioner (SCP), Programme Managing Practitioner (PMP), Executive Leadership Practitioner (ELP). Master Practitioner (MP). Each accreditation is achieved in days, weeks or months as opposed to years.

Profession Enhancement is provided by the rapid on-line accreditations especially where no formal Workplace Substance Management Programme (WSMP) training is available to the following professions, but not restricted to:

HR	Company Directors
H&S	Managers at all levels
Solicitors (Criminal & Civil)	Judiciary, Magistrates & Tribunal Judges
Trade Union Representatives	Teachers
Occupational Health	Politicians

Sector Mitigation is mandated where employers and the workplace are legally required to provide a WSMP countermeasure to assess, manage, and or mitigate culpability, sectors included:

General Commerce and Industry	Logistics and Warehousing
Insurance Industry	Oil & Gas / Offshore industry
Maritime	Utility companies
Aviation	Banking
Railways	NHS

TOX247 Ltd WSMP professionally manages each of the above enhancements and mitigations, while providing fair presentation to insurers regarding workplace substance management and much more. We will build for you, train and monitor your programme, which includes:

Programme Implementation Plan (PIP).	Risk Assessed, Managed and Mitigated
Employee Assistance Programme (EAP).	Risk Assessed, Managed and Mitigated
Substance & Alcohol Management Policy (SAMP).	Risk Assessed, Managed and Mitigated
Programme of Testing & Analysis (PoTA)	Risk Assessed, Managed and Mitigated

TOX247 Academy of workplace substance management is the author and provider of all courses. We are the assessing & compliance body. One Awards, is an internationally recognised accrediting company and they are our examining and awarding body. Without training, how can you:

- Collect workplace samples and apply evidence controls and evidence continuity?
- Manage the toxicology and evidence against any donor and within disciplinary procedures?
- Protect your company, its officers, directors, managers, and employees, culpability in law?
