

# Integrating human factors into safety management

IOSH Ireland Branch, Construction Section

22 March 2017

Finnstown Castle Hotel, Newcastle Road, Lucan, Co Dublin

08.45–16.15

This year's annual conference from the Construction Section of the IOSH Ireland Branch will provide advice and guidance for safety professionals on how human factors theory can be effectively integrated into the safety management approach of an organisation.

The day features a range of exciting and informative speakers, including a keynote presentation and practical session from Declan Monahan, Manager Safety New Works at Irish Rail.

The event also features a presentation by Chris Moon, an inspiring motivational speaker, on how to create multi-level ownership of safety in organisations. Chris will share his amazing personal story of how he overcame great adversity in his life; you can read about him at [www.chrismoon.co.uk](http://www.chrismoon.co.uk).

An IOSH membership employee will be present to assist you with any CPD and IPD queries to help you keep your record up to date.

Other speakers will provide insightful and practical presentations on a range of topics, including accident investigation, concrete pumps, crane coordination, and assertive skills, using alternative approaches to support the continual professional development of safety and management professionals.

## What's in it for you?

The learning outcomes and benefits for attendees include:

- an understanding of human factors theory and how this can be integrated into the safety management strategy of an organisation
- advice on how multiple layers of safety responsibility can be assigned in an organisation
- knowledge about the key safety issues that arise with the use of concrete pumps

- practical insight into improving negotiation skills using assertiveness
- knowledge in accident investigation – how cases and claims are won and lost owing to investigation challenges
- networking opportunities with professionals in your region.

If you gain value from this event, you can record it as part of your CPD record.

## Who should attend?

All members and non-members are welcome, including:

- safety professionals from the construction industry
- local authority employees
- services/facilities management industry professionals.

## What you need to know

To book, please email [bookings@iosh.co.uk](mailto:bookings@iosh.co.uk) or call +44 (0)116 2573 197

## Event fees

- IOSH members: €75
- Non members: €90

Lunch and refreshments will be included.

This event is followed at 16.30 by the Branch AGM, which you're welcome to attend.
