WG Statements of Intent

Working Group Chairs
Statement of Intent

Kevin Fear
• Share good practice examples arising from CONIAC working groups.
• To capture examples of how GB’s built environment industry eliminates and controls risk.
• To encourage companies of all sizes to share good practice in order to further influence others in the sector.
• To encourage all to continually review their approach to managing risk.
• Use communication channels to engage and inspire the built environment industry.
• To work closely with the other CONIAC working groups, industry bodies and individual companies from across the nations.
• Identify and promote regional initiatives.
• Develop and promote CDM duty-holders’ case studies.
• To capture and promote initiatives being undertaken by “headline” projects.
• Establish and maintain a working group that is representative of the industry, regions and “headline” projects.

• To create a communications network consisting of a CONIAN HSE hosted web-community, press releases and social media feeds.
