

Your journey towards ISO 45001 certification

If your organisation is preparing for ISO 45001 certification, IOSH would like to hear about how you're getting on. As an 'early adopter' of the world's first occupational health and safety international standard, you're a forerunner and other organisations can learn from your experiences.

So, if you can spare a few minutes and your organisation is happy to share information that IOSH can use to produce a publicly-accessible case study on our website, please provide answers to the questions below.

If you would like to share your ISO 45001 journey but remain anonymous, please let us know when you send in the completed form. when you send in the completed form.
