

Vision Zero Train the Trainer

Enhancing delivery performance

We believe that everyone who attends the Vision Zero Train the Trainer course will emerge inspired, engaged and motivated, having had a memorable high-quality experience.

We aim to transform the training room into a welcoming and dynamic environment – not only for your delegates, but also for you, our trainers.

To help you achieve this, we've developed The Vision Zero *Train the Trainer* e-learning course. This is an innovative toolbox of techniques, using established training theories and concepts to enable trainers to meet learners' needs. It will enhance and develop knowledge. It will help you to deliver engaging, learner-focused training, fully maximising the potential of the Vision Zero training material.

The course will develop your ability to run exciting and productive courses, develop essential training skills and promote a clear understanding of how to teach effectively – leaving you energised and well-equipped to deliver quality training sessions that will draw out the best input from you to get the best results from your audience.

Made up of six guided learning hours, the course is suitable for all levels of training experience, building your confidence so that you can embrace any training room scenario.

The course is aimed at people who want to deliver Vision Zero training, or aspire to do so. We already provide the materials, workbook and presentation for all course – so the focus of *Train the Trainer* is on great delivery.

The assessment

When you've completed the course, you will unlock the end of course assessment, which must be completed to obtain certification. This consists of a randomised knowledge test with questions drawn from the knowledge you will have gained from all sections of the course. The questions are in multiple formats including multiple choice, true or false and drag and drop. Full instructions are provided with each question.

IOSH reviews each assessment, awards a pass or fail and provides feedback, if required. Successful learners receive a certificate by email, which can be downloaded or printed. Successful completion of the course supports part of the criteria required to train the Vision Zero course.

Pricing

The *Train the Trainer* course costs £26.00 + VAT and gives you full access to the course content and two attempts at the assessment.
