

for a safer world of work

Branch Meeting Programme (Updated January 2021)

The Yorkshire Branch takes pride in providing our members with quality topics on a range of different subjects for our regular meetings. The Branch will endeavour to find the best available speakers on each subject. Please note: Due to personal or other commitments outside of the control of the branch, speakers and meeting topics may be subject to change.

Note: We advise our members to continually check the Yorkshire Branch microsite '**Branch Meeting Programme**' for updates and potential speaker/topic changes.

As a branch, we actively encourage and welcome non-members to attend our meetings and learn about issues and challenges at work, in the field of health, safety and welfare. All branch meetings (with the exception of the annual seminar) are free to attend.

SAVE THE DATE
